- (1) Seat capacities of institutes have to be considered while comparing lowest all India ranks.
- (2) Ranks are based on the allotted seat category. Thus, taking the example of IIT Bhubaneswar, even though top CRL is 2258, it is possible that a candidate with a better (numerically smaller) CRL has joined the Institute and he/she has been allocated a seat in category other than OPEN.
- (3) Excludes the CRL of candidates who were allotted preferentially because of DS certificate.
- (4) Category upgradation from OBC-NCL to OPEN in Round 4 allotment has been ignored.
